		Health Care	3.3%
		Real Estate	2.7%
		Cash, Money Market and Other Net Assets	2.7%
		Communication Services	2.0%

How risky is it?

The value of the fund can go down as well as up. You could lose money. One way to gauge risk is to look at how much a fund's returns change over time. This is called "volatility".

In general, funds with higher volatility will have returns that change more over time. They typically have a greater chance of losing money and may have a greater chance of higher returns. Funds with lower volatility tend to have returns that change less over time. They typically have lower returns and may have a lower chance of losing money.

Risk rating

NBI has rated the volatility of this fund as **low to medium**.

This rating is based on how much the fund's returns have changed from year to year. It doesn't tell you how volatile the fund will be in the future. This rating can change over time. A fund with a low risk rating can still lose money.

For more information about the risk rating and specific risks that can affect the fund's returns, see the Risk section of the fund's simplified prospectus.

No guarantees

Like most mutual funds, this fund doesn't have any guarantees. You may not get back the money you invest.

How has the fund performed?

This section tells you how Investor Series units of the fund have performed since inception. Returns are after expenses have been deducted. These expenses reduce the fund's returns.

Year-by-year returns

The year-by-year returns are not available for the Investor Series as it has not been distributed to the public under a simplified prospectus for a full calendar year.

Best and worst 3-month returns

The best and worst returns over a 3-month period for the Investor Series are not available as it has not completed a full calendar year of performance.

Average return

The average return is not available for Investor Series as it has not been distributed to the public under a simplified prospectus for 12 consecutive months.

Who is this fund for?

Investors who:

- are looking to invest for the long term (at least five years);
- wish to add a Canadian equity fund to their portfolio.

A word about tax

In general, you'll have to pay income tax on any money you make on a fund. How much you pay depends on the tax laws where you live and whether or not you hold the fund in a registered plan, such as a Registered Retirement Savings Plan (RRSP) or a Tax-Free Savings Account (TFSA).

Keep in mind that if you hold your fund in a non-registered account, fund distributions are included in your taxable income, whether you get them in cash or have them reinvested.

How much does it cost?

The following tables show the fees and expenses you could pay to buy, own and sell Investor Series units of the fund. The fees and expenses – including any commissions – can vary among series of the fund and among funds. Higher commissions can influence representatives to recommend one investment over another. Ask about other funds and investments that may be suitable for you at a lower cost.

1. Sales Charges

There are no charges when you purchase your units through NBI or National Bank Direct Brokerage (a division of National Bank Financial Inc.). Other representative's firm may charge you a fee.

2. Fund expenses

You don't pay these expenses directly. They affect you because they reduce the fund's returns. As of December 31, 2021, the fund's expenses were 2.12% of its value. This equals \$21.20 for every \$1,000 invested.

	Annual rate (as a % of the fund's value)
Management expense ratio (MER) This is the total of the fund's management fee (including the trailing commission) and operating expenses (including fixed rate administration fee). NBI waived some of the fund's expenses. If it had not done so, the MER would have been higher.	2.10%
Trading expense ratio (TER) These are the fund's trading costs.	0.02%
Fund Expenses	2.12%

More about the trailing commission

The trailing commission is an ongoing commission. It is paid for as long as you own the fund. It is for the services and/or advice that your representative and their firm provide to you.

NBI pays the trailing commission to your representative's firm. It is paid from the fund's management fee and is based on the value of your investment. The rate for this series of the fund is up to 1.00% of the value of your investment each year. This equals \$10.00 each year for every \$1,000 invested.

3. Other fees

You may have to pay other fees when you buy, hold, sell, switch or convert units of the fund.

Fee	What you pay
Short-term trading fee	2% of the value of the units you redeem or switch within 90 days of purchase may be charged by NBI. This fee goes to the fund.
Other fees	Registered Account termination fee, only if the registered investment account is with NBI. \$100

What if I change my mind?

Under the securities law in some provinces and territories, you have the right to:

- withdraw from an agreement to buy mutual fund units within two business days after you receive a simplified prospectus or Fund Facts document; or
- cancel your purchase within 48 hours after you receive confirmation of the purchase.

In some provinces and territories, you also have the right to cancel a purchase, or in some jurisdictions, claim damages, if the simplified prospectus, Fund Facts document or financial statements contain a misrepresentation. You must act within the time limit set by the securities law in your province or territory.

For more information, see the securities law of your province or territory or ask a lawyer.

For more information

Contact your representative or NBI for a copy of the fund's simplified prospectus and other disclosure documents. These documents and the Fund Facts make up the fund's legal documents.
