How risky is it?

The value of the fund can go down as well as up. You could lose money. One way to gauge risk is to look at how much a fund's returns change over time. This is called "volatility".

In general, funds with higher volatility will have returns that change more over time. They typically have a greater chance of losing money and may have a greater chance of higher returns. Funds with lower volatility tend to have returns that change less over time. They typically have lower returns and may have a lower chance of losing money.

Risk rating

NBI has rated the volatility of this fund as **medium**.

This rating is based on how much the fund's returns have changed from year to year. It doesn't tell you how volatile the fund will be in the future. This rating can change over time. A fund with a low risk rating can still lose money.

For more information about the risk rating and specific risks that can affect the fund's returns, see the Risk section of the fund's simplified prospectus.

No guarantees

Like most mutual funds, this fund doesn't have any guarantees. You may not get back the money you invest.

How has the fund performed?

This section tells you how Advisor Series securities of the fund have performed over the past 10 years. Returns are after expenses have been deducted. These expenses reduce the funds' returns.

Year-by-year returns

This chart shows how Advisor Series securities of the fund performed in each of the past 10 years. The fund dropped in value in 2 of the 10 years. The range of returns and change from year to year can help you assess how risky the fund has been in the past. It does not tell you how the fund will perform in the future.

Best and worst 3-month returns

This table shows the best and worst returns for Advisor Series securities of the fund in a 3-month period over the past 10 years. The best and worst 3-month returns could be higher or lower in the future. Consider how much of a loss you could afford to take in a short period of time.

	Return	3 months ending	If you invested \$1,000 at the beginning of the period
Best Return	16.5%	November 30, 2013	Your investment would rise to \$1,165.
Worst return	-24.8%	March 31, 2020	Your investment would drop to \$752.

Average return

The annual compounded return of Advisor Series securities of the fund was 9.82% over the past 10 years. If you had invested \$1,000 in this series 10 years ago, your investment would now be worth \$2,552.

Who is this fund for?

Investors who:

- are looking to invest for the long term (at least five years);
- are seeking to participate in Quebec's economic growth within a diversified portfolio.

! Don't buy this fund if you need a steady source of income from your investment.

A word about tax

In general, you'll have to pay income tax on any money you make on a fund. How much you pay depends on the tax laws where you live and whether or not you hold the fund in a registered plan, such as a Registered Retirement Savings Plan (RRSP) or a Tax-Free Savings Account (TFSA).

Keep in mind that if you hold your fund in a non-registered account, fund distributions are included in your taxable income, whether you get them in cash or have them reinvested.

How much does it cost?

The following tables show the fees and expenses you could pay to buy, own and sell Advisor Series units of the fund. The fees and expenses – including any commissions – can vary among series of the fund and among funds. Higher commissions can influence representatives to recommend one investment over another. Ask about other funds and investments that may be suitable for you at a lower cost.

1. Sales Charges

You have to choose a sales charge option when you buy securities of the fund. Ask about the pros and cons of each option.

How much does it cost? (cont'd)

Sales charge option	What you pay		How it works	
	In percent (%)	In dollars (\$)		
Initial sales charge	0% to 5% of the amount you buy	\$0 to \$50 on every \$1,000 you buy	<ul style="list-style-type: none"> You negotiate the fees with your representative. We deduct the fees from the amount you are investing and pay it to your representative's firm. 	
Deferred sales charge	If you sell within:	Upon redemption \$0 to \$60 on every \$1,000 of securities purchased	<ul style="list-style-type: none"> We pay your representative's firm a commission equal to 5% of the amount you invest. You do not pay any fee unless you redeem your securities within six years of their purchase. The redemption fees are only charged if you request the redemption of more than 10% of the securities you hold within the same calendar year. You cannot carry forward any unused free redemption securities to the next year. The redemption fees are based on the initial cost of your securities and the amount of time you hold them. The redemption fees are at a fixed rate. They are deducted from the value of the securities sold and goes to NBI. There are no redemption fees when you switch securities for securities of another NBI Fund bought under the deferred sales charge option. The deferred sales charge schedule will be based on the date that the original securities were purchased.

You do not pay any fee unless you redeem your securities within three years of their purchase. The redemption fees are based on the initial cost of your securities and the amount of time you hold them. The redemption fees are at a fixed rate. They are deducted from the value of the securities sold and go to NBI. There are no redemption fees when you switch securities for securities of another NBI Fund bought under the low sales charge option. The low sales charge schedule will be based on the date that the original securities were purchased. 	
	1 year of buying			3.0%
	2 years of buying			2.5%
	3 years of buying			2.0%

More about the trailing commission

The trailing commission is an ongoing commission. It is paid for as long as you own the fund. It is for the services and/or advice that your representative and their firm provide to you.

NBI pays the trailing commission to your representative's firm. It is paid from the fund's management fee and is based on the value of your investment. The rate depends on the sales charge option you choose.

Sales charge option	Amount of trailing commission	
	In percent (%)	In dollars (\$)
Initial sales charge	Up to 1.25% of the value of your investment each year.	Maximum of \$12.50 each year on every \$1,000 invested.
Deferred sales charge	Up to 0.50% of the value of your investment each year within the first six years.	Maximum of \$5.00 each year on every \$1,000 invested.
	Up to 1.25% of the value of your investment each year for the following years for new purchase after May 14, 2015, excluding securities purchased under a systematic investment plan started before May 14, 2015 and reinvested distributions. For switches, the trailing commission schedule applicable is the one in force at the time of the initial purchase.	Maximum of \$12.50 each year on every \$1,000 invested.
Low sales charge	Up to 0.50% of the value of your investment each year within the first three years.	Maximum of \$5.00 each year on every \$1,000 invested.
	Up to 1.00% of the value of your investment each year for the following years.	Maximum of \$10.00 each year on every \$1,000 invested.

3. Other fees

You may have to pay other fees when you buy, hold, sell, switch or convert securities of the fund.

Fee	What you pay
Short-term trading fee	2% of the value of the securities you redeem or switch within 90 days of purchase may be charged by NBI. This fee goes to the fund.
Switch fee	There are no fees when you switch securities through NBI or National Bank Direct Brokerage (a division of National Bank Financial Inc.). If you switch securities through another representative's firm, you may have to pay fees of up to 2% of the value of the securities. You negotiate these fees with your representative.
Conversion fee	There are no fees when you convert securities through NBI or National Bank Direct Brokerage (a division of National Bank Financial Inc.). If you convert securities through another representative's firm, you may have to pay fees of up to 2% of the value of the securities. You negotiate these fees with your representative.
Other fees	Registered Account termination fee, only if the registered investment account is with NBI. \$100

What if I change my mind?

Under the securities law in some provinces and territories, you have the right to:

- withdraw from an agreement to buy mutual fund securities within two business days after you receive a simplified prospectus or Fund Facts document; or
- cancel your purchase within 48 hours after you receive confirmation of the purchase.

In some provinces and territories, you also have the right to cancel a purchase, or in some jurisdictions, claim damages, if the simplified prospectus, annual information form, Fund Facts document or financial statements contain a misrepresentation. You must act within the time limit set by the securities law in your province or territory.

For more information, see the securities law of your province or territory or ask a lawyer.
