

INTERIM MANAGEMENT REPORT OF FUND PERFORMANCE

For the period ended June 30, 2021

Global Equity Fund
NBI U.S. Equity Fund

Notes on forward-looking statements

This report may contain forward-looking statements concerning the Fund, its future performance, its strategies or prospects or about future events or circumstances. Such forward-looking statements include, among others, statements with respect to our beliefs, plans, expectations, estimates and intentions. The use of the expressions "foresee", "intend", "anticipate", "estimate", "assume", "believe" and "expect" and other similar terms and expressions indicate forward-looking statements.

By their very nature, forward-looking statements imply the use of assumptions and necessarily involve inherent risks and uncertainties. Consequently, there is a significant risk that the explicit or implicit forecasts contained in these forward-looking statements might not materialize or that they may not prove to be accurate in the future. A number of factors could cause future results, conditions or events to differ materially from the objectives, expectations, estimates or intentions expressed in such forward-looking statements. Such differences might be caused by several factors, including changes in Canadian and worldwide economic and financial conditions (in particular interest and exchange rates and the prices of other financial instruments), market trends, new regulatory provisions, competition, changes in technology and the potential impact of conflicts and other international events.

The foregoing list of factors is not exhaustive. Before making any investment decision, investors and others relying on our forward-looking statements should carefully consider the foregoing factors and other factors. We caution readers not to rely unduly on these forward-looking statements. We assume no obligation to update forward-looking statements in the light of new information, future events or other circumstances unless applicable legislation so provides.

This interim management report of fund performance contains financial highlights, but does not contain the complete interim financial statements of the investment fund. You can get a copy of the interim financial statements at your request, and at no cost, by calling 1-888-270-3941 or 514-871-2082, by writing to us at National Bank Investments Advisory Service, 500, Place d'Armes, 12th floor, Montreal, Quebec, H2Y 2W3, by visiting our website at www.nbinvestments.ca, by visiting SEDAR's website at www.sedar.com, or by contacting your advisor. You may also contact us using one of these methods to request a copy of the investment fund's proxy voting policies and procedures, proxy voting disclosure record, or quarterly portfolio disclosure.

Management Discussion of Fund Performance

Results of Operations

For the six-month period ended June 30, 2021, the NBI U.S. Equity Fund's Investor Series units returned 11.18% compared to 12.02% for the Fund's benchmark, the S&P 500 Index (CAD). Unlike the benchmark, the Fund's performance is calculated after fees and expenses. Please see the *Past Performance* section for the returns of all of the Fund's series, which may vary mainly because of fees and expenses.

Certain series of the Fund, as applicable, may make distributions at a rate determined by the manager. This rate may change from time to time. If the aggregate amount of distributions in such series exceeds the portion of net income and net realized capital gains allocated to such series, the excess will constitute a return of capital. The manager does not believe that the return of capital distributions made by such series of the Fund have a meaningful impact on the Fund's ability to implement its investment strategy or to fulfill its investment objective.

The Fund's net asset value rose by 28.96% over the period, from \$610.94 million as at December 31, 2020 to \$787.89 million as at June 30, 2021.

The increase stemmed mainly from unit purchases by investors in the Fund and market fluctuations.

Investor optimism has persisted as the post-pandemic global economic revival gained further momentum, with the ramped-up vaccine rollout and fading new coronavirus infections setting the stage for a rapid and recovery. Investors have thus far weathered concerns that accelerating pricing pressures could force an earlier-than-expected withdrawal in central bank support, with the U.S. Federal Reserve (the "Fed") officials downplaying the threat of a prolonged period of higher inflation and reiterating their pledges for ongoing accommodation, which provided a sense of calm across the financial markets.

The global equity market rally has continued, and many indices are surpassing or approaching all-time highs. Within the MSCI World Index, which returned +9.88% during the period, the best performing sectors were Energy (+28.69%), Financials (+17.31%) and Real Estate (+13.52%). The worst-performing sectors within the index were Utilities (-3.02%), Consumer Staples (+2.25%) and Health Care (+6.84%).

Within the S&P 500 Index, which returned +12.02%, the best performing sectors were Energy (+41.56%), Financials (+22.17%) and Real Estate (+19.84%). The worst-performing sectors during the period were Utilities (-0.49%), Consumer Staples (+2.08%) and Consumer Discretionary (+7.18%).

In this environment, the NBI U.S. Equity Fund underperformed its benchmark, the S&P 500 Index, during the period. The relative underperformance was mainly due to security selection in the Materials and Health Care sector as well as the portfolio's lack of exposure to the overperforming Energy sector. On the other hand, stock selection in the Communication Services, Information Technology and Industrials sectors contributed positively to relative performance.

On an individual stock level, Becton Dickinson was among the top detractors to relative performance during the period.

Recent Developments

During the period, the portfolio manager did not initiate or sold any position in the Fund. He did, however, slightly trim the portfolio's positions in Moody's and MSCI, while adding on to what he believes to be relatively more attractive positions for the long term such as Johnson & Johnson and PepsiCo.

The investment team remains confident that its bottom-up, original, fundamental research, with a focus on very high-quality companies, will continue to provide steady returns over the long term regardless of the macro environment. The Fund's investment horizon is best measured in years or decades, not months or quarters. The investment team's focus continues to be on identifying what it believes to be high-quality companies with sustainable competitive advantages, operating in industries with high barriers to entry, contributing to durable pricing power.

Going forward, a crucial element to watch will be the evolution of the Fed's guidance in tandem with the labour market recovery. For now, bond markets appear to be standing exactly where the Fed wants them, but for this to remain the case, the U.S. Central Bank will have to strike the right balance between coherence, credibility, and predictability, which is no easy task. Well aware of the challenges ahead, investors should, however, expect central bankers to exercise great caution in the process.

On April 30, 2021, the Fund's independent review committee (the "IRC") was reduced to three members when Yves Julien resigned as IRC member. On May 1, 2021, the Fund's IRC was increased to four members when Paul Béland was appointed as IRC member.

Related Party Transactions

National Bank of Canada ("the Bank") and its affiliated companies' roles and responsibilities related to the Fund are as follows:

Trustee, Custodian, and Registrar

Natcan Trust Company ("NTC"), a direct or indirect wholly-owned subsidiary of the Bank, is the Fund's trustee. In this capacity, it is the legal owner of the Fund's investments.

NTC acts as registrar for the Fund's securities and the names of securityholders. NTC also acts as the Fund's custodian. The fees for NTC's custodial services are based on the standard rates in effect at NTC.

Agent for securities lending transactions

NTC acts as the agent for securities lending transactions acts on behalf of the Fund in administering securities lending transactions entered into by the Fund. NTC is an affiliate of the Manager.

Fund Manager

The Fund is managed by National Bank Investments Inc. ("NBII"), which is a wholly-owned subsidiary of the Bank. Therefore, NBII provides or ensures the provision of all general management and administrative services required by the Fund's current operations, including investment consulting, the arrangement of brokerage contracts for the purchase and sale of the investment portfolio, bookkeeping and other administrative services required by the Fund.

The Manager pays the operating expenses of the Fund other than its "Fund costs" (defined below) (the "variable operating expenses"), in exchange for the Fund's payment to the Manager of annual fixed-rate administration fees with respect to each series of the Fund.

The administration fees are equal to a specified percentage of the net asset value of each series of the Fund, calculated and paid in the same manner as the Fund's management fees. The variable operating expenses payable by the Manager include, but are not limited to: transfer agency and recordkeeping costs; custodial costs; accounting and valuation fees; audit fees and legal fees; costs of preparing and distributing financial reports, simplified prospectuses, annual information forms, Fund Facts, continuous disclosure material and other securityholder communications; and costs of trustee services relating to registered tax plans, as applicable.

In addition to administration fees, the Fund shall also pay certain Fund costs, namely: taxes (including, but not limited to, GST/HST and income taxes); costs of compliance with any changes to existing governmental or regulatory requirements introduced after August 1, 2013; costs of compliance with any new governmental or regulatory requirements, including any new fees introduced after August 1, 2013; interest and borrowing costs; costs related to external services that were not commonly charged in the Canadian mutual fund industry as at August 1, 2013; Independent Review Committee costs, including compensation paid to IRC members, travel expenses, insurance premiums and costs associated with their continuing education; and variable operating expenses incurred outside of the normal course of business of the Fund.

The Manager may, from time to time and at its sole discretion, decide to absorb a portion of a series' management fees, administration fees or Fund costs.

As described under the heading *Management Fees*, the Fund pays annual management fees to NBII as consideration for its services.

Distribution and Dealer Compensation

NBII acts as principal distributor for the Fund. In this capacity, NBII buys, sells and swaps securities through Bank branches and the National Bank Investments Advisory Service in Canadian provinces and territories, and through external registered representatives. Fund securities are also offered by National Bank Financial Inc. (including its division National Bank Direct Brokerage), CABN Investments (a division of NBII) and other affiliated entities. Brokers may receive, depending on the distributed series, a monthly commission representing a percentage of the average daily value of the securities held by their clients.

Brokerage Fees

The Fund may pay broker's commissions at market rates to a corporation affiliated with NBII. The brokerage fees paid by the Fund for the period are as follows:

	Period ended June 30, 2021
Total brokerage fees	14,403.84
Brokerage fees paid to National Bank Financial	-

Holdings

As at June 30, 2021, National Bank Investments Inc. held 100.59 Fund securities for a value of \$3,606.31, which represented close to 0.0005% of the net asset value of the Fund at that date. Transactions between National Bank Investments Inc. and the Fund were carried out in the normal course of business and at the Fund's net asset value as at the transaction date.

As at June 30, 2021, National Bank Trust Inc. held 1.01 Fund securities for a value of \$36.07, which represented close to 0.0000% of the net asset value of the Fund at that date. Transactions between National Bank Trust Inc. and the Fund were carried out in the normal course of business and at the Fund's net asset value as at the transaction date.

Registered Plan Trust Services

NTC receives a fixed amount per registered account for services provided as trustee for registered plans.

Administrative and Operating Services

The provision of certain services was delegated by the Fund Manager, NBII, to National Bank Trust Inc. ("NBT"), a wholly-owned indirect subsidiary of the Bank. These include accounting, reporting and portfolio valuation services. The fees incurred for these services are paid to NBT by the Fund manager.

Management Fees

The Fund pays annual management fees to the Fund manager for its management services. The fees are calculated based on a percentage of the Fund's daily net asset value before applicable taxes and are paid on a monthly basis. A portion of the management fees paid by the Fund covers maximum annual trailer fees and sales commissions paid to brokers. The remainder of the management fees primarily covers investment management and general administration services. The breakdown of major services provided in consideration of the management fees, expressed as an approximate percentage of the management fees is as follows:

Series	Management Fees	Distribution	Others [†]
Investor Series	1.75%	57.14%	42.89%
Advisor Series and Series T5*			
Front-end load***	1.75%	28.57%	71.43%
Back-end load - 1 to 6 years	1.75%	28.57%	71.43%
Back-end load - 7 years and more	1.75%	57.14%	42.89%
Low load - 1 to 3 years	1.75%	28.57%	71.43%
Low load - 4 years and more	1.75%	57.14%	42.89%
Series F and Series F5	0.65%	—	100.00%
Series O	N/A**	—	100.00%

([†]) Includes all costs related to management, investment advisory services, general administration and profit.

(*) Excluding sales commissions paid on the Advisor Series and Series T5 with low sales charges option and deferred sales charge option, which are not paid for out of the management fees.

(**) There are no management fees paid by the Fund with respect to the Series O. Instead, Series O securityholders pay a negotiated administration fee directly to National Bank Investments.

(***) Also available under the USD purchase option.

Past Performance

The performance of each series of the Fund is presented below and calculated as at December 31 of each year. It assumes that all distributions made in the periods shown were reinvested in additional securities and does not take into account sales, redemption charges, distributions, or optional charges that would have reduced returns. Past performance of a series of a Fund does not necessarily indicate how it will perform in the future.

Annual Returns

The bar charts indicate the performance for each the Fund's series in existence greater than one year during the years shown, and illustrate how the performance has changed from year to year. They show, in percentage terms, how much an investment made on January 1 (or made commencing from the start of the series) would have grown or decreased by December 31 of that year, or by June 30, as applicable.

Portfolio turnover rate (%) ⁽⁸⁾	—	8.46	8.61	9.70	11.24	11.65
Net asset value per unit (\$)	21.61	19.93	17.81	14.84	14.57	13.05

- ⁽¹⁾ This information is derived from the Fund's Annual Audited Financial Statements and Interim Unaudited Financial Statements. The net assets per unit presented in the financial statements might differ from the net asset value calculated for fund pricing purposes. The differences are explained in the notes to the financial statements.
- ⁽²⁾ Net assets and distributions are based on the actual number of units outstanding at the relevant time. The increase or decrease from operations is based on the average number of units outstanding over the accounting period.
- ⁽³⁾ Distributions were paid in cash or reinvested in additional units of the Fund, or both.
- ⁽⁴⁾ The net assets are calculated in accordance with IFRS.
- ⁽⁵⁾ This information is provided as at the last day of the accounting period shown.
- ⁽⁶⁾ Management expense ratio is based on total expenses including sales taxes for the accounting period indicated (excluding commission, other portfolio transaction costs and withholding taxes) and is expressed as an annualized percentage of daily average net value during the accounting period.
- ⁽⁷⁾ The trading expense ratio represents total commissions and other portfolio transaction costs expressed as an annualized percentage of daily average net asset value during the accounting period. The trading expense ratio includes, if necessary, the trading expenses from its underlying funds, as described in Article 15.2 of Regulation 81-106.
- ⁽⁸⁾ The Fund's portfolio turnover rate indicates how actively the Fund portfolio's manager manages its portfolio investments. A portfolio turnover rate of 100% is equivalent to the Fund buying and selling all of the securities in its portfolio once in the course of the accounting period. The higher a Fund's portfolio turnover rate in an accounting period, the greater the trading costs payable by the Fund in the accounting period, and the greater the chance of an investor receiving taxable capital gains in the accounting period. There is not necessarily a relationship between a high turnover rate and the performance of a Fund.

Summary of Investment Portfolio

As of June 30, 2021

Portfolio Top Holdings

	% of Net Asset Value
Microsoft Corp.	8.8
Alphabet Inc., Class A	7.1
