

ANNUAL MANAGEMENT REPORT OF FUND PERFORMANCE

For the period ended December 31, 2020

Canadian Equity Fund
NBI Small Cap Fund

Notes on forward-looking statements

This report may contain forward-looking statements concerning the Fund, its future performance, its strategies or prospects or about future events or circumstances. Such forward-looking statements include, among others, statements with respect to our beliefs, plans, expectations, estimates and intentions. The use of the expressions "foresee", "intend", "anticipate", "estimate", "assume", "believe" and "expect" and other similar terms and expressions indicate forward-looking statements.

By their very nature, forward-looking statements imply the use of assumptions and necessarily involve inherent risks and uncertainties. Consequently, there is a significant risk that the explicit or implicit forecasts contained in these forward-looking statements might not materialize or that they may not prove to be accurate in the future. A number of factors could cause future results, conditions or events to differ materially from the objectives, expectations, estimates or intentions expressed in such forward-looking statements. Such differences might be caused by several factors, including changes in Canadian and worldwide economic and financial conditions (in particular interest and exchange rates and the prices of other financial instruments), market trends, new regulatory provisions, competition, changes in technology and the potential impact of conflicts and other international events.

The foregoing list of factors is not exhaustive. Before making any investment decision, investors and others relying on our forward-looking statements should carefully consider the foregoing factors and other factors. We caution readers not to rely unduly on these forward-looking statements. We assume no obligation to update forward-looking statements in the light of new information, future events or other circumstances unless applicable legislation so provides.

This annual management report of fund performance contains financial highlights, but does not contain the complete annual financial statements of the investment fund. You can get a copy of the annual financial statements at your request, and at no cost, by calling 1-888-270-3941 or 514-871-2082, by writing to us at National Bank Investments Advisory Service, 500, Place d'Armes, 12th floor, Montreal, Quebec, H2Y 2W3, by visiting our website at www.nbinvestments.ca, by visiting SEDAR's website at www.sedar.com, or by contacting your advisor. You may also contact us using one of these methods to request a copy of the investment fund's proxy voting policies and procedures, proxy voting disclosure record, or quarterly portfolio disclosure.

Management Discussion of Fund Performance

Investment Objective and Strategies

The NBI Small Cap Fund's investment objective is to provide long-term capital growth and preservation. The Fund invests primarily in common shares of companies chosen for their growth potential. The Fund may also invest in money market instruments and securities of Canadian federal and provincial governments. The Fund makes investments in small capitalization companies which provide investors with additional dynamic growth potential for a diversified portfolio.

The portfolio manager analyzes securities with growth potential. The portfolio manager initially invests a limited proportion of assets in these companies, making further investments if the company lives up to expectations. Generally, the portfolio manager does not invest in medium or large capitalization unless they show earnings growth potential, and favours security selection over sector rotation. The Fund may invest approximately 25% of its assets in foreign equities.

Risks

The global investment risk of the Fund remains as described in the simplified prospectus or any amendments thereto and Fund Facts.

Results of Operations

For the twelve-month period ended December 31, 2020, the NBI Small Cap Fund's Investor Series units returned 12.66% compared to 12.87% for the Fund's benchmark, the S&P/TSX Small Cap Index (CAD). Unlike the benchmark, the Fund's performance is calculated after fees and expenses. Please see the *Past Performance* section for the returns of all of the Fund's series, which may vary mainly because of fees and expenses.

Certain series of the Fund, as applicable, may make distributions at a rate determined by the manager. This rate may change from time to time. If the aggregate amount of distributions in such series exceeds the portion of net income and net realized capital gains allocated to such series, the excess will constitute a return of capital. The manager does not believe that the return of capital distributions made by such series of the Fund have a meaningful impact on the Fund's ability to implement its investment strategy or to fulfill its investment objective.

The Fund's net asset value dropped by 2.98% over the period, from \$951.76 million as at December 31, 2019 to \$923.40 million as at December 31, 2020.

It goes without saying that 2020 has been a whirlwind year for global equity markets.

The year started with positive momentum with many markets reaching record highs up until mid-February when the coronavirus outbreak quickly turned things upside down, triggering panic and uncertainty about the outlook of the economy and global growth prospects. The rapid spread of the virus along with the rising number of cases and worldwide shutdowns caused high volatility in the markets, pushing investors away from equity markets and towards bond markets, where they sought refuge. As a result, global equity markets and bond yields fell sharply, in the worst meltdown since the global financial crisis.

The very timely and assertive policy response both from central banks and from governments, however, helped reinvigorate risk appetite and has been instrumental in guiding the economy back to health. The breakthroughs on the vaccine front have also been instrumental in allowing investors to look through to the end of the pandemic in 2021 and this has seen equity markets extend their gains as we head into the new year. Overall, the increasing risk appetite and the rebound in economic activity were favourable for small cap stocks, outperforming large cap stocks since the market lows observed in March.

In 2020, the S&P/TSX Small Cap Index returned 12.87% versus 5.60% for the S&P/TSX index. The Materials (+44.9%) and Consumer Staples (+42.1%) sectors were the best performers while the Energy (-33.1%) and Health Care (-18.3%) sectors lagged.

During the last few weeks of the year, a sector rotation took place in favour of the cyclical sectors that were lagging at the beginning of the year. Merger and acquisition activity also picked up nicely and many small caps became takeover targets from private equity funds as the abundance and low cost of capital is starting to get deployed. The IPO market also continued to shine as investor demand was impressive for newly listed companies.

In this context, the NBI Small Cap Fund underperformed its benchmark in 2020. Positive relative performance is explained by the strategy's stock selection in the Information Technology, Real Estate and Health Care sectors. The Fund's underweight in the Energy sector also contributed positively. On the other hand, the Fund's underweight and stock selection in the Materials sector was costly as many commodities soared to higher levels.

Recent Developments

During the year, the investment team made several transactions aimed at improving the quality of the portfolio. Some stocks, which were considered more fragile to a prolonged economic slowdown, have been sold. The investment team notably acquired securities from larger companies that became eligible to the strategy following the market downturn earlier in the year. The investment team also added to the Fund's positions in companies that will benefit from the changes in customer demand related to the pandemic.

The portfolio manager initiated positions in Calian Group, Dye and Durham, GDI Integrated Facility Services, Equitable Group, IAA, Qualys, Parkland Fuel, Real Matters, Sangoma Technologies, Savaria, Pivotree, Repay Holdings, Trean Insurance Group, Topaz Energy, Trisura Group and Wesdome Mines.

The following positions were exited during the year: Aecon Group, B2 Gold, Dorman Products, Intertape Polymer, Helmerich&Payne, Lassonde, Minto Apartment REIT, Storm Resources, Tamarack Valley, Torc Oil & Gas Sienna Senior Living and Verra Mobility.

The global economy continues to rebound and has stabilized at healthy levels, supported by an abundance of monetary and fiscal stimulus. While the latest virus trends are worrisome, there are reasons for optimism and the end of the pandemic is in sight. While widespread distribution and vaccination will take some time, there now appears to be a light at the end of the tunnel.

While the recovery may be restrained in the short term, it won't be derailed, and a rebound in economic activity is expected. Upbeat consumer and business confidence should translate into pent-up demand and a rebound in corporate profits.

The abundance and low cost of capital should be favourable to mergers and acquisitions. The portfolio manager expects our companies to be active on the acquisition front and further consolidate their marketplace. He also expects that some of the Fund's investments will become takeover targets as larger companies or private equity funds deploy their excess capital.

On April 30, 2020, the Fund's independent review committee (the "IRC") was reduced to three members when Jacques Valotaire and Jean-François Bernier resigned as IRC members. On July 1, 2020, the Fund's IRC was increased to four members when Marie Desroches was appointed as IRC member.

Related Party Transactions

National Bank of Canada ("the Bank") and its affiliated companies' roles and responsibilities related to the Fund are as follows:

Trustee, Custodian, and Registrar

Natcan Trust Company ("NTC"), a direct or indirect wholly-owned subsidiary of the Bank, is the Fund's trustee. In this capacity, it is the legal owner of the Fund's investments.

NTC acts as registrar for the Fund's securities and the names of securityholders. NTC also acts as the Fund's custodian. The fees for NTC's custodial services are based on the standard rates in effect at NTC.

Fund Manager

The Fund is managed by National Bank Investments Inc. ("NBII"), which is a wholly-owned subsidiary of the Bank. Therefore, NBII provides or ensures the provision of all general management and administrative services required by the Fund's current operations, including investment consulting, the arrangement of brokerage contracts for the purchase and sale of the investment portfolio, bookkeeping and other administrative services required by the Fund.

The Manager pays the operating expenses of the Fund other than its "Fund costs" (defined below) (the "variable operating expenses"), in exchange for the Fund's payment to the Manager of annual fixed-rate administration fees with respect to each series of the Fund.

The administration fees are equal to a specified percentage of the net asset value of each series of the Fund, calculated and paid in the same manner as the Fund's management fees. The variable operating expenses payable by the Manager include, but are not limited to: transfer agency and recordkeeping costs; custodial costs; accounting and valuation fees; audit fees and legal fees; costs of preparing and distributing financial reports, simplified prospectuses, annual information forms, Fund Facts, continuous disclosure material and other securityholder communications; and costs of trustee services relating to registered tax plans, as applicable.

In addition to administration fees, the Fund shall also pay certain Fund costs, namely: taxes (including, but not limited to, GST/HST and income taxes); costs of compliance with any changes to existing governmental or regulatory requirements introduced after August 1, 2013; costs of compliance with any new governmental or regulatory requirements, including any new fees introduced after August 1, 2013; interest and borrowing costs; costs related to external services that were not commonly charged in the Canadian mutual fund industry as at August 1, 2013; Independent Review Committee costs, including compensation paid to IRC members, travel expenses, insurance premiums and costs associated with their continuing education; and variable operating expenses incurred outside of the normal course of business of the Fund.

The Manager may, from time to time and at its sole discretion, decide to absorb a portion of a series' management fees, administration fees or Fund costs.

As described under the heading *Management Fees*, the Fund pays annual management fees to NBII as consideration for its services.

Distribution and Dealer Compensation

NBII acts as principal distributor for the Fund. In this capacity, NBII buys, sells and swaps securities through Bank branches and the National Bank Investments Advisory Service in Canadian provinces and territories, and through external registered representatives. Fund securities are also offered by National Bank Financial Inc. (including its division National Bank Direct Brokerage), CABN Investments (a division of NBII) and other affiliated entities. Brokers may receive, depending on the distributed series, a monthly commission representing a percentage of the average daily value of the securities held by their clients.

Brokerage Fees

The Fund may pay broker's commissions at market rates to a corporation affiliated with NBII. The brokerage fees paid by the Fund for the period are as follows:

	Period ended December 31, 2020
Total brokerage fees	950,922.41
Brokerage fees paid to National Bank Financial	38,497.96

Holdings

As at December 31, 2020, National Bank Investments Inc. held 89.84 Fund securities for a value of \$2,021.39, which represented close to 0.0003% of the net asset value of the Fund at that date. Transactions between National Bank Investments Inc. and the Fund were carried out in the normal course of business and at the Fund's net asset value as at the transaction date.

As at December 31, 2020, National Bank Trust Inc. held 1.02 Fund securities for a value of \$22.87, which represented close to 0.0000% of the net asset value of the Fund at that date. Transactions between National Bank Trust Inc. and the Fund were carried out in the normal course of business and at the Fund's net asset value as at the transaction date.

Independent Review Committee Approvals and Recommendations

The Fund followed the standing instructions of its Independent Review Committee with respect to one or more of the following transactions:

- Purchasing or holding the securities of a related issuer, in particular, those of National Bank of Canada;
- Investing in the securities of an issuer when an entity related to the manager acts as an underwriter for the placement or at any time during the 60-day period after the end of the placement;
- Purchasing or selling securities to another investment Fund managed by the manager or a company in the same group;
- Purchasing or selling debt securities on the secondary market, through related brokers that are main brokers in the Canadian debt securities market (in accordance with an exemption received from the Canadian Securities Administrators);
- Entering into foreign exchange transactions (including both spot transactions and forward transactions) with National Bank of Canada.

The Manager has implemented policies and procedures to make sure that the conditions applicable to each of the above transactions are met. The applicable standing instructions require that these transactions be carried out in accordance with NBII policies, which specify, in particular, that investment decisions pertaining to these related party transactions must be made free from any influence by an entity related to NBII and without taking into account any consideration relevant to an entity related to NBII. Furthermore, the investment decisions must represent the business judgment of the securities advisor, uninfluenced by considerations other than the best interest of the Fund and must achieve a fair and reasonable result for the Fund.

Registered Plan Trust Services

NTC receives a fixed amount per registered account for services provided as trustee for registered plans.

Administrative and Operating Services

The provision of certain services was delegated by the Fund Manager, NBII, to National Bank Trust Inc. ("NBT"), a wholly-owned indirect subsidiary of the Bank. These include accounting, reporting and portfolio valuation services. The fees incurred for these services are paid to NBT by the Fund manager.

Management Fees

The Fund pays annual management fees to the Fund manager for its management services. The fees are calculated based on a percentage of the Fund's daily net asset value before applicable taxes and are paid on a monthly basis. A portion of the management fees paid by the Fund covers maximum annual trailer fees and sales commissions paid to brokers. The remainder of the management fees primarily covers investment management and general administration services. The breakdown of major services provided in consideration of the management fees, expressed as an approximate percentage of the management fees is as follows:

Series	Management Fees	Distribution	Others [†]
Investor Series and Series R	2.00%	62.50%	37.50%
Advisor Series*			
Front-end load	2.00%	62.50%	37.50%
Back-end load - 1 to 6 years	2.00%	25.00%	75.00%
Back-end load - 7 years and more	2.00%	62.50%	37.50%
Low load - 1 to 3 years	2.00%	25.00%	75.00%
Low load - 4 years and more	2.00%	50.00%	50.00%
Series F	0.75%	—	100.00%
Series O	N/A**	—	100.00%

^(†) Includes all costs related to management, investment advisory services, general administration and profit.

^(*) Excluding sales commissions paid on the Advisor Series with the low sales charge option and deferred sales charge option, which are not paid for out of the management fees.

^(**) There are no management fees paid by the Fund with respect to the Series O. Instead, Series O securityholders pay a negotiated administration fee directly to National Bank Investments.

Past Performance

The performance of each series of the Fund is presented below and calculated as at December 31 of each year. It assumes that all distributions made in the periods shown were reinvested in additional securities and does not take into account sales, redemption charges, distributions, or optional charges that would have reduced returns. Past performance of a series of a Fund does not necessarily indicate how it will perform in the future.

Annual Returns

The bar charts indicate the performance for each the Fund's series in existence greater than one year during the years shown, and illustrate how the performance has changed from year to year. They show, in percentage terms, how much an investment made on January 1 (or made commencing from the start of the series) would have grown or decreased by December 31 of that year, or by June 30, as applicable.

⁽ⁱ⁾ Returns for the period from May 27, 2011 (commencement of operations) to December 31, 2011.

Annual Compounded Performance

The following table shows the Fund's annual compound returns for each series in existence greater than one year and for each of the periods ended on December 31, 2020, compared with the following benchmark:

- S&P/TSX Small Cap Index (CAD)

Portfolio turnover rate (%) ⁽⁸⁾	31.63	37.85	53.83	55.38	58.24
Net asset value per unit (\$)	6.94	6.58	5.89	7.95	8.88

- ⁽¹⁾ This information is derived from the Fund's Annual Audited Financial Statements. The net assets per unit presented in the financial statements might differ from the net asset value calculated for fund pricing purposes. The differences are explained in the notes to the financial statements.
- ⁽²⁾ Net assets and distributions are based on the actual number of units outstanding at the relevant time. The increase or decrease from operations is based on the average number of units outstanding over the accounting period.
- ⁽³⁾ Distributions were paid in cash or reinvested in additional units of the Fund, or both.
- ⁽⁴⁾ The net assets are calculated in accordance with IFRS.
- ⁽⁵⁾ This information is provided as at the last day of the accounting period shown.
- ⁽⁶⁾ Management expense ratio is based on total expenses including sales taxes for the accounting period indicated (excluding commission, other portfolio transaction costs and withholding taxes) and is expressed as an annualized percentage of daily average net value during the accounting period.
- ⁽⁷⁾ The trading expense ratio represents total commissions and other portfolio transaction costs expressed as an annualized percentage of daily average net asset value during the accounting period. The trading expense ratio includes, if necessary, the trading expenses from its underlying funds, as described in Article 15.2 of Regulation 81-106.
- ⁽⁸⁾ The Fund's portfolio turnover rate indicates how actively the Fund portfolio's manager manages its portfolio investments. A portfolio turnover rate of 100% is equivalent to the Fund buying and selling all of the securities in its portfolio once in the course of the accounting period. The higher a Fund's portfolio turnover rate in an accounting period, the greater the trading costs payable by the Fund in the accounting period, and the greater the chance of an investor receiving taxable capital gains in the accounting period. There is not necessarily a relationship between a high turnover rate and the performance of a Fund.

Summary of Investment Portfolio

As of December 31, 2020

Portfolio Top Holdings

	% of Net Asset Value
Cargojet Inc.	4.2
